## New facilities planned for mentally retarded

Frankfort - Gov. Edward T. Breathitt has announced a multi-million dollar program for the care of Kentucky's mentally retarded, including construction of a major residential center at Louisville.

He said construction will begin within a few months on the \$6 million facility adjacent to Central State Hospital to house the most severely retarded. It will be an eight-unit colony and training school.

The program also calls for a multi-purpose facility near Lexington to train 300 to 400 retarded persons.

The Frankfort State Hospital and School will become a diagnostic and evaluation center, and many of its 700 patients eventually will be moved to Louisville or Lexington. The Outwood State Hospital and School at Dawson Springs will continue to operate as now.

Smaller centers with bed-capacity of about 50 will be placed strategically around the state, probably in proximity to state universities. The Louisville center will house about 800 persons. The initial phase of this project will use about \$1,200,000 of State bond issue money. Completion will depend on when money becomes available from the legislature.

The program is the result of a two

year study by professional and lay persons and the State Department of Mental Health.

### DAWSON TO SPEAK

FRANKFORT -- State Economic Security Commissioner C. Leslie Dawson will be the featured speaker at a district meeting of the Kentucky Welfare Association December 15 at Lees Junior College, Jackson.

Dawson will discuss the major challenges facing social welfare in Kentucky, elaborating on the theme of state association meeting recently in Louisville.

Lees College President Troy R. Eslinger is president of K.W.A. District 19, which includes Breathitt, Knott, Owsley, Perry, Leslie and Letcher counties.

### A reminder...

FRANKFORT -- Winter snow and ice on Eastern Kentucky roads will make driving unusually dangerous at times in the month ahead.

The Kentucky Department of Public Safety points out that driver error causes most traffic accidents, and lists four such errors as the most common: following too closely, traveling too fast for road and weather conditions, misjudging the speed of an oncoming car, and driving after drinking alcoholic beverages.

## MORE THAN 600 YOUNG KENTUCKIANS RECEIVE JOB CORPS TRAINING

FRANKFORT -- More than 600 young men and women from Kentucky are in resident training now at Job Corps centers across the United States, according to State Economic Security Commissioner C. Leslie Dawson.

Job Corpsmen are from low income families, and range in age from 16 to 21.

Dawson reports that over 500 of the Kentucky trainees are men. They are located at some 60 training sites in either urban or rural conservation-type camps.

The conservation centers offer a combination of basic education and actual conservation work experience, which is supplemented by vocational training.

## Governor fights program slashes

Gov. Edward T. Breathitt has sounded a strong protest to what he fears may be a "drastic" cutback in the Jobless Fathers program in Eastern Kentucky.

At stake, apparently, is a threatened abrupt end to the program which provides jobs for 5,800 Kentucky mountain men and their families who are the victims of the depression which still continues in Eastern Kentucky.

Locally, the program involves 304 men and their 1,400 dependents in Letcher County, and nearly 500 men and their dependents in Knott County.

The Letcher County payroll under the program, formally called the Work Experience and Training Program, exceeds \$1,000,000 annually, currently averaging \$84,000 a month.

The threatened funds cutback apparently stems from action by Congress earlier this year when it reduced appropriations to the Office of Economic Opportunity for the war on poverty.

Reports were that cutbacks in federal spending ordered by President Johnson to help finance the war in Vietnam.

President Johnson this week ordered a three-billion dollar reduction in federal spending during the current fiscal year, and said spending for non-war purposes would be reduced a further five-billion dollars next fiscal year. He said, however, that essential welfare programs would not be cut.

The WET program started in Eastern Kentucky in the early spring of 1964 as a means to provide jobs and income to unemployed coal miners who had been displaced by machinery.

The program was initiated by the White House after a trip to Washington by a delegation of unemployed miners representing the Appalachian Committee for Full Employment, headed by Berman Gibson.

The program was started at a time when the Eastern Kentucky coal fields were torn by violence. There were numerous incidents by coal mine tipple and railroad bridge dynamiting, shootings and beatings, as the unemployed turned to violence to express their dissatisfaction.

## CAR WRECK IN HEAVY FOG KILLS WOMAN

Mrs. Elsie Henry, 57, of Bellfontaine, Ohio, was killed Friday night when the car in which she was riding plunged off the mountain.

Alvin Lee Henry, her husband and driver of the car, told state police he was driving down the Jenkins (Pine) Mountain in heavy fog when he was blinded by lights from an approaching car.

State police said Henry's car hit a guard post along the roadside and then plunged 90 feet down an embankment before coming to a halt.

Shirley, the Henrys' 15-year-old daughter, was injured and was admitted to the Whitesburg Hospital, where she was taken when no doctors were available at the Jenkins hospital. Her condition was described as fair.

Five other passengers escaped serious injury, police said.

The WET program generally is credited with having brought peace to the coal fields, it put idle men to work and permitted them to feed, clothe and house their families.

The program, however, has been the target of steady criticism by independent non-union coal operators who charge they have trouble recruiting enough labor to operate their mines. This claim is disputed by observers who say many coal mine operations still do not meet minimum wage and mine safety levels and therefore have labor recruitment troubles.

Governor Breathitt's protest against elimination or the cutting back of the WET program was contained in a letter to John Gardner, U. S. Secretary of Health, Education and Welfare.

"I have learned," Breathitt said, "that your agency is planning cut drastically the Work-Experience and Training Program in East Kentucky..."

"This action, I will invoke an extreme hardship on these men and their families at a time of the year when adequate shelter, clothing and food are vitally necessary," Breathitt said.

Kentucky currently is allocated \$17.6 million annually for the program, which provides employment for 5,800 fathers in 19 counties.

The men are paid a maximum of \$250 a month, with checks averaging \$205 monthly. All are required to attend evening school classes, and those who have children of school age are required to see that the children attend class.

Breathitt said the program is "not a handout as programs in some states, not just another way to support people who cannot support themselves."

Instead, he termed it a realistic program that gives people an opportunity to lift themselves by their own bootstraps.

The governor said that since the program started it has helped 9,000 fathers and 31,500 children in the 19 counties.

Of those, 1,500 have graduated to full-time employment, 900 have been graduated from the eighth grade and 600 have completed high school equivalency, Breathitt said. He added that many now are ready to go into vocational training.

"Perhaps our biggest gain against poverty from this program has been to keep thousands of young Kentuckians in school so they can meet the stricter standards for employment in this technical age."

"School superintendents in the area say that the dropout rate has lowered considerably among the children of these unemployed parents. These children are now holding their heads high, proud that their fathers are working."

"Bridges have been built by these fathers, streams cleared to reduce flooding, roads built to bring school buses to the hollows where our children have been required to walk for miles just to get to school every day. These are quiet miracles," the governor said.

Breathitt called upon Gardner to do all in his power to forestall the funds cutback first, as a humanitarian, and second, as a high official of the richest country on this earth."

The governor went on to suggest that the Health, Education and Welfare Department use some of its other special grant funds to continue financing the Jobless Fathers program if specifically appropriated funds are not available.

## TYPHOID SHOTS NO LONGER RECOMMENDED

FRANKFORT -- Typhoid immunization in Kentucky is no longer recommended on a routine basis, says Dr. Russell E. Teague, State Commissioner of Health.

"This applies to school children as well as adults," Teague said recently. "However, immunization is recommended in three specific situations: intimate exposure to a known typhoid carrier; outbreaks of typhoid fever in a community; and foreign travel to areas where typhoid fever is prevalent."

The incidence of typhoid fever in Kentucky and the United States has declined steadily for many years, Teague reports. Less than 500 cases of typhoid are now reported annually in the U.S., and a continuing downward trend is expected, he adds.

The main function of the State Department of Health in combatting typhoid now will be to trace down known carriers of the disease, and to keep them under surveillance.

### Dam to be built at Big Bone park

Frankfort -- The state has awarded a \$54,742 contract to Hawkins and Robinson Co., Frankfort, to construct a dam at Big Bone Lick State Park in Boone County. The dam will create a lake that will create a water supply for the park.

The Frankfort firm was the low bidder on the project, which is the initial step in establishing a complete utility system at the park. Contracts will be awarded soon for water distribution and sewage systems at the park.

The seven-acre lake is part of a \$400,000 improvement program announced for the park recently by Gov. Edward T. Breathitt.

**What'd you expect us  
to put our Overhead Cam Six in?**

**An ordinary car?**

Our revolutionary 165-hp OHC 6 is so revolutionary we had to do something special with it. So we made it standard in all Tempests and LeMans.

You see, it was inspired by those famous overhead cam engines in expensive European sports cars. With a few Pontiac refinements, of course. And with a power reserve for expressway passing you'd normally expect from a V-8.

We even offer a 215-hp version that makes a

lot of big V-8s seem awfully extravagant. Which is why we say, with a six like this who needs an eight?

Incidentally, a four-way hazard warning flasher, backup lights, and GM's energy absorbing steering column are some of the safety features also standard in Tempests and Le Mans. How can you resist seeing your Pontiac dealer today?

State sets rules  
for brush burning

Frankfort - The Kentucky Division of Forestry has recommended safety guidelines on brush and debris burning by minors and elderly persons.

Natural Resources Commissioner J. O. Matlick says the recommendations were prompted by the deaths of 10 senior citizens during the last five years in self-ignited fires that got out of hand.

These are the recommendations by the Division:

"No elderly persons should burn any debris, plant beds, fields or gardens unless all safety precautions have been taken to prevent the fires from escaping. Such persons should be accompanied at all times by some energetic person."

"No minors should burn any of the same materials unless accompanied at all times by an adult."

"No person who is ill or recuperating from an illness should burn any of the materials."

State Forestry Director Gene L. Butcher said children were responsible for 65 out of the 242 miscellaneous fires that occurred during 1966.

Butcher said his division intends to enforce a state law that restricts to between the hours of 4:30 p.m. and 12 midnight the time when any flammable material capable of spreading fire, located in or within 150 feet of any woodland or brushland, may be burned.

## THE SHERDY MARTINS COME FROM LOUISVILLE FOR A VISIT

By: MABEL KISER

The Sherdy Martins and daughter Cynthia of Louisville have been here this week for a visit with his parents, the Sherd Martins, and her mother, Mrs. Cinda Cook.

Blair and I visited with Maylon Brown, of Sandlick, who is a patient in the Jenkins Clinic after suffering a stroke at his home about two weeks ago.

Mrs. Jose May is home from the hospital and recuperating from a serious throat ailment at the home of her daughter and son-in-law, the Leonard Bakers.

Mrs. Larry McCowan of Thornton plans to soon join her soldier husband in Frankfort, Germany. Mrs. McCowan is the former Lake Wright, daughter of the George Wrights, Thornton. Mrs. Wright is employed at the Millstone Sewing Center. She and Mrs. Celeste Cook specialize in making little boy's pants.

Doing right does not always bring the reward of good as soon as expected. Earlier this fall Mrs. Sherd Martin sent her youngest son, Darrell, into the pasture field to see why the dog was barking so hard. Darrell came back and reported the dog was barking at a stray sheep. Mrs. Martin told him to go get the sheep and tie it up in the yard and she would call the radio station and see if the owner would come and get his sheep. He did and she did and the radio announcer did and the trouble all began. A man came and claimed the sheep. Later in the day another man came and claimed that the sheep was his. The second man took a warrant for the first man, saying that he got the sheep under false pretenses. Of course the Martins had to be witnesses at the trial. Not being satisfied with the verdict, the second man asked for and received a new hearing. The Martins went to court again. Now there is talk of a third trial and the Martins will have to go to court again, all because a little sheep got the wanderlust and the Martins are good honest people.

Friends of Mrs. Ella (Ell) Cook on Solomon Road in Whitesburg, will be glad to know she is doing well. Mrs. Cook, nearing 80, tells us she is in the best health she has enjoyed in some years. Her children, Amos and Landman Cook, called from Ohio. Mrs. A. C. Sergent called from Indiana and Ted Cook of Lexington came to see her last week.

Mrs. Chester Baker of Craft's Colly is recuperating nicely at home after major surgery in the Whitesburg hospital. Visiting her were her son and his wife, Mr. and Mrs. Ralph Baker and children, Angela Carol and Vicki Michelle of Indianapolis. The Bakers also visited her father, James (Cotton) Hoskins on Millstone.

Rosco Profitt, formerly of Letcher, now of Detroit, was here this week visiting his mother, Mrs. Polly Profitt, Fleming, and relatives on Millstone. Mrs. Profitt did not accompany any her husband to Letcher because she was visiting an ill sister in Chicago.

Jesse E. Collier and his bride-to-be of Louisville were visiting on Millstone over the holidays. His mother, Mrs. Louisa Collier, and his uncle Steve Profitt drove back to Louis-

## Card of Appreciation

Mere words can never express our heart-felt gratitude and appreciation to those who were so kind and thoughtful to use during the sickness and death of our beloved husband and father, William Wiley Craft. We want to thank especially those who sent the beautiful flowers, the comforting letters and cards, and the telegrams. The food and the thoughtfulness of those who came into our home, served the food, washed dishes, and did everything humanly possible to make our family and friends more comfortable will always be held dear to our hearts. We will long remember the consoling words of the ministers and their kindness. To each and all we extend our appreciation and pray God's blessings to rest upon you.

Mrs. William Wiley, Archie and Virginia Craft and family of William W. Craft

ville with Jesse for a short visit. Dave Collier is not doing at all well at this time.

Elzie Franklin and his step son from Whiteoak visited Uncle Ben Franklin last week. They enjoyed a good talk of the days when they were young and were hunting in the mountains, which had more woodland than now. They discussed the time Uncle Ben got the snake bite and how they doctored him. There were few doctors in these parts in those days. They also relived the hunt they had whenever they learned that a bear was

loose in the woods and how near he was to them. It makes interesting conversation now, but I guess it was a rough time to them then. The Franklins were so glad to have son John visit them after his illness in Junction City, Ga. Everyone was grieved to learn of the serious accident of Kenneth Bentley.

The Dewey Roses and daughter, Alma Lee, drove to Cincinnati last week, where Mr. Rose had a medical checkup for an old back injury received at work in Cincinnati several years ago.

Mrs. Roberta Maggard and daughter Judy from Green View, Ohio, were here this week for a visit with her parents, the Ben Bentleys, Millstone, the James Bakers, Sand-

lick, and Mrs. Elsie Hammonds of Whitesburg.

Mr. and Mrs. James Baker of Sandlick are the parents of a baby son, Richard, born Oct. 29 at the Whitesburg hospital. The Bakers have two other children, Darlene, 16, and Carlene, 8.

Mr. and Mrs. Herbert Stamper spent the week end in Lexington Christmas Shopping.

Mr. and Mrs. Ralph Collins of Premium have a new baby girl born Nov. 7 at the Whitesburg hospital.

Mr. and Mrs. Dewey Smith have been Christmas shopping in Middlesboro, Ky.

Charles Dagnan (Chuck) is home after spending several days in the McDowell hospital. He was injured when he humped from a car he was parking on a hill and found that the breaks were out.

Mrs. Minnie Kiser, Kona, enjoyed a good dinner Thanksgiving Day at the home of her daughter, Mrs. Ray Jackson of Kackhorn. Other guests enjoying the dinner were Mrs. Denice Fleming and son, Scotty Ray, of Cincinnati, and Mr. and Mrs. R. F.

Kiser of Knoxville. Now is the time to read St. Luke 21:20.

Ladies at the Millstone Sewing Center and their driver, Mrs.

Charles Dagnan (Chuck) is home after spending several days in the McDowell hospital. He was injured when he humped from a car he was parking on a hill and found that the breaks were out.

Mrs. Minnie Kiser, Mrs. Maxie Wright, Mrs. Mildred Stidham, Mrs. Ruthal Baker and Mrs. Mabel Kiser and Dewey Rose all enjoyed a Thanksgiving Day dinner in the lunch room of the Martha Jane Potter School at Kona. The dinner was good with turkey and all the trim-

nings. After dinner they enjoyed a tour of the school with Mr. Conley Webb, principal. The school is the only one of its kind in Letcher County, with team teaching and a closed lunchroom service. The children have lunch in groups

## STATE HEALTH DEPARTMENT WARNS YOU MAY BE A "HIDDEN DIABETIC"

Frankfort - There are more than 20,000 "hidden diabetics" in Kentucky - people who have diabetes and don't know it, according to the Kentucky Department of Health.

"To find them early and help them get the medical treatment they need is a vital public health objective and opportunity," said Dr. Russell E. Teague, State Commissioner of Public Health.

"The Health Department embarked on a statewide diabetes detection program July 1."

Dr. Teague said, "To date we have 26 counties participating and expect six or seven more to begin in the next month or so."

The shower for Miss Adams was held in the Presbyterian Church. She received many fine gifts, and fun was had by all. The shower for Miss Halcomb was in the home of Mrs. Aster Halcomb who prepared a very fine meal for everyone. Miss Halcomb also received many fine gifts, and the shower was enjoyed by all who attended.

Joe Begley has bought a new truck, and will use it to deliver for the store.

Mrs. Wayne Back is home from the hospital in Lexington, and reports that she is feeling better.

Jack and Nancy Lindsay were home from Paintsville not long ago for a visit.

Nancy Gogowski, our new VISTA worker, has finally found a place to live; she will be living above the B&S Market in Blackey. Part of the time, she is now involved in a new project called Outpost Education. Five girls who are members of the out-of-school Neighborhood Youth Corps program will be living with Nancy from Monday to Thursday of each week. She will serve as their employer-teacher and supervisor.

Tests are administered locally, and then sent back to the Health Department for analysis, Teague said.

The tests determine the percentage of glucose in the blood. If the glucose content is abnormally high, then the person is referred to his physician for further testing.

"Our records indicate that around 1.5 per cent of all Kentuckians have diabetes," Teague said, "and half of them don't know it."

The Department of Health and the Kentucky Medical Association will intensify their efforts during National Diabetes Detection Week Nov. 13-19. Teague said most of Kentucky's private physicians will be giving free diabetes tests during the time.

of classes and then return to their home rooms for a 25-minute session of physical education. The quiet efficiency of the teachers was impressive. The system for teaching slow children impressed me very much. All the children were taught on their individual level of learning, and not by A and B letter groups which brand a slow child. A child might be slow in reading but smart in arithmetic. So this method of teaching causes no embarrassment to the child. The school will hold its Fall Festival Dec. 9, which will feature a Style Show, a Talent Show and the crowning of the king and queen. Everyone is invited.

One of my favorite grandchildren (I have seven favorites) had a birthday party last week. Keanie Bentley shared cake and ice cream with 25 or 30 of her little friends in Cleveland. I am sure that there is a land of Utopia to a 10-year-old having a birthday party surrounded by so many friends who so sincerely know that the world is good.

The Neighborhood Youth Corps girls working at the Millstone Sewing Center are Cookie Taylor, Karen Martin, Millstone; Lula

May Mullins, Thornton; Devonne Holland and Christine Gibson, Sergeant; and Margaret Williams of Kona. The girls are now making dresses for dolls to be given to needy children at Christmas.

Mr. and Mrs. G. Bennett Short (Viola) have been here for a visit with her parents, the Lilburn Taylors.

Recent guests of the Paul Larks of Whitesburg were her sister, Mrs. Juanita Minor of Burdine; Mr. and Mrs. Don Sumpter, Kath and Donnie and Kay and Leonard Bogg, all from Columbus, O.

Sometimes this great big world is not so big after all. Mrs. Lowell Holbrook (Linda Meade) and Mrs. Ronald Dean Johnson (Carla Lark) of Lorain and Elyria, Ohio, who were good friends on Millstone, now live near each other and visit often.

While Blaine and I were visiting in the Jenkins hospital Friday afternoon we were glad to see a former neighbor, Mrs. Joe Sumpter (Novella Taylor.) Novella has been with the hospital for two years, but Blaine and I had not seen her for longer than that. Novella looks everyday of 20. She takes her look of youth after her mother,

the former Ruby Crase. Ruby is well, she is much more than 40 but she looks 35. Her father, Uncle Clay Crase, is over 100 years old.

Blaine and I celebrated our 34th wedding anniversary Thursday, Nov. 24, quietly at home alone. The children did not make it home. A lot of water has gone under the bridge since Thanksgiving, November 24, 1932. There have been many trials and some lean years but on the whole they have been happy ones. There have been no deaths in our immediate family. We have our own home which we built in 1940. We had a lot to thank God for Thanksgiving Day.

Little Tammy Wright celebrated her eighth birthday with a party of 25 or more guests earlier this month at the home of her parents, the S. T. Wrights, Jr. What a good world it is to eight and to have so many friends at the party. The Rachel Adams Circle met at the home of Mrs. Gladys Wright last Tuesday with Mrs. Sam Collins, Whitesburg, as leader. The next meeting will be the Christmas party in the First Baptist Church in Whitesburg.

Mr. and Mrs. S. T. Wright, Jr., and daughter Tammy and Miss Seldom Wright all drove to Mt. Sterling last Sunday for a visit with friends.

Mr. and Mrs. Homer Collier and daughter of Cleveland were here over the week end to visit her parents, the Hatler Cooks of Sergeant, and his mother, Mrs. Louisa Collier.

Sailor R. F. Kiser of Whitesburg spent several days with his mother, Mrs. Minnie Kiser of Kona and while here built his mother a porch.

Blaine and I enjoyed a delicious cake during the holidays baked for us by Mrs. Katherine Johnson of Hemphill.

Dinner guests of the S. T. Wright, Jr., family of Thornton were Mrs. John Hall, Mrs. Amy Lee Turner and sons, Johnny Ray, Michael and Jeffery, Mr. and Mrs. Delmer Hall and sons Steve and Barry and McArthur Hall, all from Pike County; Bill Wright, S. T. Wright, Sr., and Seldom Wright, all from Millstone.

Blaine and I drove to Carr Creek Saturday morning and as we drove through Breedings' Creek we noticed a home burning down. The

new home was below the home of Elder Charlie Gibson on the left of the road. We never learned who the owner was, but we noticed that there were no furniture or set out of the house. I was quite upset because I knew that this was a dire tragedy for someone.

Mr. and Mrs. Roscoe Webb are home after spending several days with their son, Major Webb and his family in Cumberland. Major has been in ill health for some time.

### Christmas tour of decorated homes set at Prestonsburg

Prestonsburg - The Prestonsburg Woman's Club will hold its second annual Christmas Tour of Homes on Dec. 3 and 4.
